

Ultimate Favorites Word Cloud

Directions: Create your own Word Cloud using one of the following a free website such as www.wordle.net.

1. Click on Create Your Own
2. **Type your name (first and last) 5 times.** The more times you type a word, the larger it will appear on the Wordle.
****Important: Use the tilde symbol (~) in place of the space between words if you want two words to stay together.**

Tilde Character: Use the tilde character, ~ , on your keyboard in place of the space between words when you want two or more words to stay together. For example, I~Love~Dogs would allow all three words to appear as a phrase in Wordle instead of having them split up into three different places.

3. Type each of your favorites in the text box that appears.
4. Once you generate your Wordle, you cannot go back and add/delete words so make sure you have everything as you would like.
5. Click Go when you are finished.
6. Your Wordle will show.
7. Click on Save as PNG. When the pop-up box appears, change the filename to wordle.jpg. **Change the file location to your document's folder.**

Create
your
own

Language: Change upper-case/lower-case

Font: Change the font

Layout: Can place words in alphabetical order. Change the layout/design of your words.

Color: Change font/background colors.

Predesigned

Randomize: Changes to a new, predesigned template with different fonts, colors and layouts.
